FEATURED PROJECTS

VChat Web | React, TypeScript, Firebase | [Live Demo \(https://v-chat-web.vercel.app/chat\)](https://v-chat-web.vercel.app/chat)

- Developed a responsive Single Page Application serving as the web client companion to VChat Android.
- Engineered real-time synchronization of messages, typing indicators, and user presence using Firestore.
- Achieved feature parity with fluid, mobile-first layouts and implemented strict security rules.

VChat Android | Native Android, Java, Firebase | [GitHub \(https://github.com/Vlabs99/Vchat\)](https://github.com/Vlabs99/Vchat)

- Built a real-time messaging application natively for Android utilizing MVVM architecture.
- Developed advanced chat functionalities including one-to-one messaging, group chats, and media sharing.
- Ensured seamless data synchronization and lifecycle-safe operations using Firebase backend services.

VLabs Portfolio | React, TypeScript, Tailwind CSS | [Live Demo \(https://vlabs99.github.io/VLabs/\)](https://vlabs99.github.io/VLabs/)

- Designed and developed a premium developer portfolio showcasing projects with a modern aesthetic.
- Integrated interactive project showcases and dynamic animations for high performance and responsiveness.

ACADEMIC PROJECTS

Hotel Room Booking System | ASP.NET

- Built a web-based room booking platform enabling users to check availability and reserve rooms seamlessly.
- Developed an administrative dashboard to manage room inventory, pricing, and monitor reservations.

School Attendance System | C# .NET

- Engineered a desktop application to track and manage student and staff daily attendance efficiently.
- Integrated database connectivity to ensure reliable storage and accuracy of attendance records.
